No: Make the Admissions table your first stop. Early registration? Plus, enjoy some great snacks, talk to the Admissions Office and representatives from staff as students Spring Event for fall enrollment!

setback, the tentative completion date has been moved to April 4. Please be aware that the utility work being conducted in the R parking lot (near Redondo Village) has been extended due to an equipment breakdown. The work involves conducting hydrothermal drilling and

Kudos
UNM. Jason has been a route tech for the last 5 years with Kone and will be working alongside our other all of us here at UNM! New tech, Jason Blacksher will be joining us on April 1 as a Kone resident tech at for many years and we want to extend our congratulations and appreciation. We wish him the best from Electricians who played vital roles in making this project a success.

FM Arborists recently removed a cottonwood tree located between Anthropology and Scholes Hall. As they decompose. On Arbor Day, April 26, the team will plant a bur oak as its replacement. The bur oak area. Although some surface roots from the cottonwood tree remain, these will gradually decompose into stump has been ground down below the surface, giving the surrounding turf the opportunity to fill in the creating a safer environment for everyone.

Thank you for your dedication and hard work. Let's continue working together to complete the remaining phases of this project and make our campus safer and even more beautiful.
